

Sinclair
Broadcasting is
using public
airwaves for a
simple political
action. They are
beyond
reprehensible. This
action in airing a
so-called
"documentary" in
close proximity to
an election is
fundamentally
against all bounds
for proper usage of
publicly-allocated
resource.

I will fight for a
reduction in media
ownership caps, this
sort of behavior is
a direct result of
concentration of
media ownership.

Thanks,
bil
